

# WESTIN HOTEL

## St. Louis, Missouri

### Project Scope:

Lee Reid, Jr. served as Mesirow Stein Development's Project Manager and Construction Manager for the construction of a brand new boutique hotel. In this role he acted as owner representative managing local contractors and the architect during construction of the hotel. Located in the historic Cupples Station section of St. Louis, the Westin St. Louis boasts a premiere setting. Guests can enjoy the nearby federal courthouse, pedestrian mall, and famed Gateway Arch. As well as watch a Cardinals game at Busch stadium or just explore the city. A convenient Avis car rental onsite makes getting around easy. The hotel boasts a health club, a full-service spa and a full-service business center that allows each guest to take care of any last minute details if they are hosting an event in one of the hotel's various meeting spaces.

### Gross Building Area:

- 225,000 SF / 7-story, 250 rooms

### Project Cost:

\$90,000,000
